

Emery County School District

Policy: GCB—Professional Staff Contracts

Date Adopted: 16 November 1988
Current Review / Revision: 1 November 2000

The Board recognizes the importance of an employment agreement between the Board and its professional employees. Therefore, the Board issues individual contracts to professional employees and considers such contracts an appendix to this manual and has the force of Board policy.

Employees are to review their contracts. Errors are to be reported to the Business Administrator on or before the deadline for contract return. Employees will be required to re-pay any over payments on a term equal to the overpayment. (Example: If an employee is overpaid for six months, they must repay the district in six monthly payments.)
